Risk Assessment Plus Matrix as a Developer Creating a Project

Risks	Risk Statement		
Site goes down	Cannot continue working until resolved		
	Waste of staff time		
	Waste of company resources		
Internet fault	User unable to access information/work		
Data information leak	GDPR protection laws breached		

Fire/Building damage	Unable to operate daily tasks		
	Property can be damaged and unusable		
	Risk to life		
Natural disaster	Power outtage		
	Equipment could be damaged or destroyed		
	Building damage		
	Risk to life		
Staff illness	Unable to run business (smoothly)		
DDOS attack	Wesbite unable to operate		
Third-party incidents	Risk to life		
	Risk of lawsuit for injuries		
Power outtage	Restaurant unable to operate		
	Website/server side unable to operate		
	·		
Terrorist attack	Risk to life		
Human Error	Issues with software, hardware, other users		
	, ,		
Working in office alone	Risk of injury		
TOTALIS III OTTICE GIOTIC	Those or mijury		
M/aulia a tius a	Citation for the language station at a finite station		
Working time	Sitting for too long, repetitive strain injury		

Reponse				
Contact tech support to rectify the issue				
Contact ISP				
Attmept to self resolve				
Notify appropriate authorities				
Contact manager immediately				
Failsafe all equipment				
Contact emergency services if appropriate				
Contact emergency services if appropriate				
Rectify issue with tech support				
First aid equipment to be stored nearby				
Can delay project date				
can affect customers/other users				
IP Monitoring				
Call appropriate emergency services				
Contact power company, tech support				
Call authorities				
Ensure safety of staff and customers				
Ensure effective use of software. Double check wo				
Seek help				
Make sure to take regular breaks and maintain he				
The same required and arrangement				

Objectives	Likelihood	Impact
Have an additional failsafe server ready to support	Low	High
,		
Third party hosting service	Low	Low
Purchase internet backup to save progress		
setup appropriate network protection	Low	Medium
Encrypt data so it is unusable if stolen		
Insurance of property, contents and personnel	High	High
Fire prevention measures		
Insurance of property	Low	High
backups		
Insurance		
Have a list of supply staff ready to support	High	Medium
Setup appropriate network protection	Low	High
Block malicious IPs		
Have appropriate insurances in place	High	Medium
Daily checks to building to prevent issues		
implement proper cleaning/hygiene safety rota		
First Aid training for staff		
Have candles / backup generator ready	Low	HIgh
If server goes down have failover server		
Implement terrorist attack prevention plan	Low	High
Ensure building has door barriers, shutters, door locks etc.	LOW	півіі
Linduic building has door barriers, shutters, door locks etc.		
Staff training and resresher courses	High	Medium
Start training and resiesher courses	Ingii	iviculum
To oncure that emergency contact details and above are nearly.	Love	Modium
To ensure that emergency contact details and phone are nearby.	Low	Medium
Ensure first aid kit is present		

Low

Low

Annual or six monthly checkups with general health nurse/doctor

Risk Level		Impact
